

Dear Judge Arnoni and Mr. Killmeyer,

Thank you for visiting West Mifflin Area High School and Middle School.

The presentations were outstanding! The “LEAD” program is very well and thoughtfully put together with a sharp focus on helping students make the right choices in all aspects of life. From the importance of having a positive attitude to the importance of being consistent and establishing and maintaining a high level of discipline to teaching students about the dangers of drugs, vaping, alcohol abuse to safe driving procedures, the presentations were extremely helpful to all students.

It's great to present programs that are proactive versus reactive while covering the consequences of improper decisions.

Many thanks again for what you do for students and families in our communities!
